Functionnal Flavors

Consumers today seek not only great taste but also functional benefits in their food. With that in mind, Metarom Group has developed a range of functional flavors designed not just to enhance taste but to actively improve the eating experience. Whether it's masking unwanted flavors, balancing profiles, or elevating nutritional perception, our solutions help create products that are both delicious and functional.

acti'plus

Fat Replacer

Our Acti'PLUS solutions enable the use of certain raw materials to be limited in your recipes by providing a sensory added value.

acti'boost

Sweetness Enhancer

This range aims to improve the nutritional profile of reduced-sugar products. It makes it possible to rebalance the sweet perception of their formulation tastewise.

acti'mask

Masking Agent

A range of solutions capable of significantly reducing aromatic notes and undesirable flavors of functional and enriched products. It is particularly suited to sport, senior or slimming nutrition.
